

# Thank You, OSA Foundation Donors!

The 2018 Siegman International School on Lasers, founded in 2014 in honor of Anthony E. Siegman, hosted its fifth class of exceptional students at the Denmark Technical University (DTU), 28 July-4 August 2018 on the Island of Hven, Backafallsbyn, Sweden.

The OSA Foundation (OSAF) serves as the philanthropic arm of The Optical Society (OSA). Our mission is to inspire and support promising individuals in their pursuit of careers in optics and photonics.

Our global programs provide professional-development opportunities, awards and honors, and resources for students and early-career professionals. All donations to OSAF are matched by the Optical Society, doubling the impact of our donors. Additionally, all administrative fees are paid by OSA ensuring that donor gifts are used for programs, not overhead. For more information on OSAF and our efforts visit [www.osa.org/foundation](http://www.osa.org/foundation).

This year, we are also pleased to recognize our donors who have given consistently, and whose giving totals US\$10,000 or more over the past ten years. These donors are highlighted in **GREEN**. Additionally, individual donors who have given consistently, and whose giving totals US\$2,500 or more over the past ten years, are highlighted in **BLUE**.
