

The OSA Foundation launched a new training program called Career Accelerators, designed to acclimate OSA students and early-career members with fundamental business skills including leadership, team building, business strategy, finance, marketing communication and negotiation skills. The first Career Accelerator, January 2020, focused on careers in optical communications, with 70 attendees from 19 countries. The OSAF plans to host 15 of these programs by 2024.

Thank You, OSA Foundation Donors!

The OSA Foundation serves as the philanthropic arm for The Optical Society (OSA). Our mission is to inspire, reward and support students and early-career professionals in optics and photonics. Our global programs include professional development, summer schools, prizes, scholarships, fellowships, awards and honors. Each and every donation received is matched 100% by the OSA, doubling the impact of our donors. Additionally, all administrative fees are paid by OSA ensuring gifts directly support our programs. For more information or to make a donation, go to www.osa.org/donate.

We are pleased to recognize our donors who have given consistently, and whose giving totals US\$10,000 or more over the past 10 years. These donors are highlighted in **GREEN**. Those individuals who have given consistently, and whose giving totals US\$2,500 more over the past 10 years are highlighted in **BLUE**.

LEADERSHIP CIRCLE

Donors whose giving totals US\$100,000 or above over the past 10 years.
