

Student Knowledge: Math + Science

Administered every four years since 1995 by the International Association for the Evaluation of Educational Achievement (IEA), the *Trends in International Mathematics and Science Study* (TIMSS) assesses mathematics and science knowledge of students around the world. Here we look at a selection of countries with student scores above the international average over the past two decades.

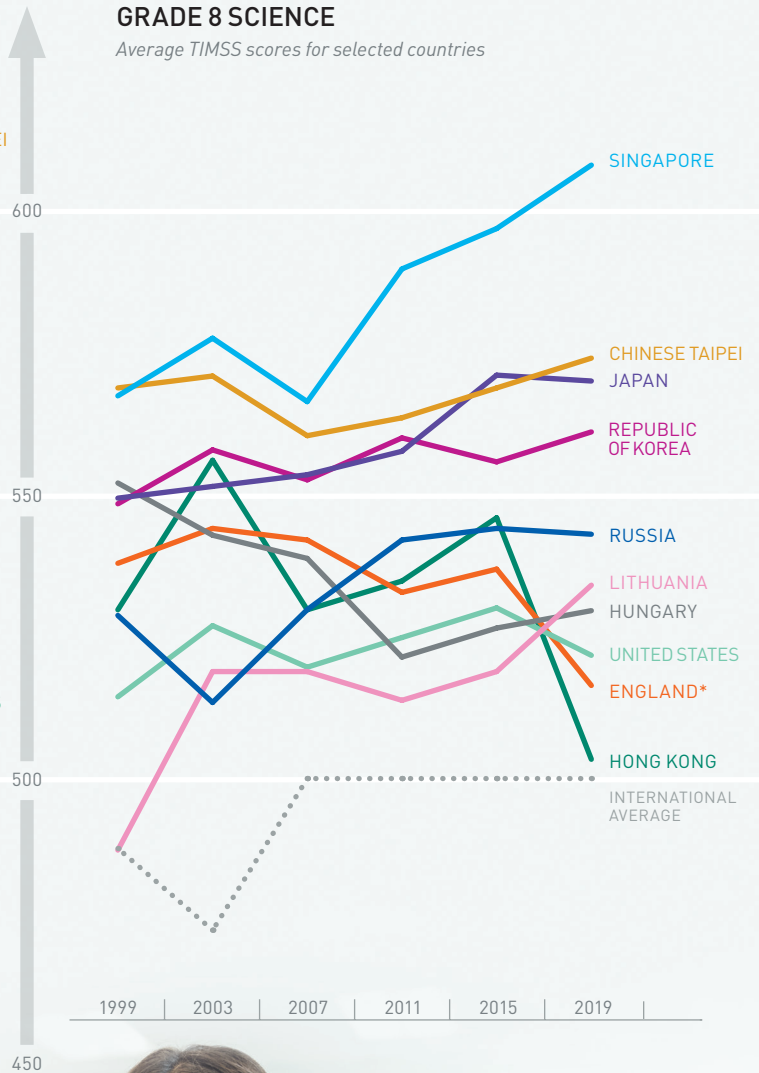

GRADE 8 MATHEMATICS

Average TIMSS scores for selected countries

GRADE 8 SCIENCE

Average TIMSS scores for selected countries

*2003 England data includes grade 9 participants.
